

Dr. Lori Ducharme-NIDA

Episode Overview

This episode includes an interview with Dr. Lori Ducharme, Health Scientist Administrator at the National Institute on Drug Abuse (NIDA). Dr. Ducharme is the Science Officer for the Justice Community Opioid Innovation Network (JCOIN).

- **JCOIN is a national research network that works toward finding evidence-based solutions to help individuals, families, and communities affected by the opioid epidemic.**
- **JCOIN uses an implementation science approach to research and study the complexity of substance/opioid use disorder and associated treatments and modalities.**
